

The smart and battery-powered Reboots Go Lite device is smaller, lighter, and quieter than any comparable device currently** on the market. With up to 180 mmHg, the new addition offers enough power for a successful regeneration. It also features a connection to the new Reboots app, which allows convenient control of the device via smartphone. The Reboots Go Lite Recovery Boots enable effective regeneration at the best price-performance ratio. NEW: Now available with the new Pants 2.0 for the best best price- performance ratio and an improved recovery!
