

Ice bathing has numerous benefits: it promotes muscle regeneration, reduces inflammation, strengthens the immune system and helps to reduce stress. With the Reboots Ice Tub, you can now enjoy these benefits at home! Thanks to the innovative 6-layer thermal coating, the water stays cold for longer, while the exclusive thermal lid provides additional insulation and keeps the water clean. Thanks to its compact size and practical carry bag, you can transport it effortlessly and use it anywhere, whether at home, at a training camp or at a competition. With a capacity of 340 litres, it can also be easily set up in smaller areas. The user-friendly water drainage function ensures that emptying is simple and clean - without lifting or tipping over.

The Reboots Ice Tub is the ideal solution for ambitious athletes and biohackers who want to maximise their recovery and improve their mental strength!

6-LAYER THERMAL INSULATION
The six layers of thermal insulation keep the water cold for longer. The double-insulated lid further reinforces the insulation and protects against dirt. This not only keeps the water cold for longer, but also keeps it clean!

MOBILE, PRACTICAL, EASY TO TRANSPORT
Whether at home, at a training camp or at a competition - the Reboots Ice Tub is quick to set up and fits perfectly into the carrying bag supplied. With a capacity of 340 litres, it is ideal for smaller areas.

ROBUST & HIGH-QUALITY DESIGN
The outer shell of the Ice Tubs is made of stylish Oxford fabric with a waterproof membrane and is durable and resistant. No risk of tears or holes - simply as strong as you need it to be.
